HUSBAND's NAME: _____ MRID: _____

We, _____ and _____ have been explained in a language we understand, that quality control of the medicines available in Surya Narayana Pharmacy are directly checked and monitored by the joint Quality Control Team of Surya Narayana Pharmacy and Jaya Fertility Centre, wherein they ensure proper standard and quality of the hormonal and other medications available in Surya Narayana Pharmacy, to the best of their ability. We have also been informed about the constant clinical quality checks of each medication available in the said Pharmacy. We have been explained the importance of cold chain maintenance and the need of quality control in fertility medication/treatments. We have been explained that in-spite of quality control checks, there may be cases of non-response due to various contributing factors including but not limited to patient related causes.

Despite the above, we have decided to buy medicines from a different pharmacy for reasons that need not be mentioned here. We have not been forced or coerced into buying medicines at the above-mentioned pharmacy by anyone from the staff of Surya Narayana Pharmacy or the doctors/nurses/staff of Jaya Fertility Centre. We have been given the option of buying medicines anywhere we want. We do not hold Dr. Priyanka Chevuturi/Jaya Fertility Centre responsible for poor/unexpected response due to medicine intake from a different pharmacy as they are not responsible/informed/aware of quality checks in other pharmacies.
